

PHARMA
Lozenge Expert

LOZENGE EXPERT SINCE 1997

CMO & CDMO

Our company has established expertise in the contracted manufacturing of lozenge products. We provide comprehensive services from formulation support to final packaging, ensuring consistent quality and adherence to industry standards.

As a trusted partner for pharmaceutical lozenge production, we provide tailored contract manufacturing solutions, including the flexibility to accommodate multiple pack sizes for optimal market penetration and from lab scale/batch size trials to large scale production with a strong emphasis on quality control and regulatory compliance.

EVERYTHING UNDER A SINGLE ROOF

QUALITY STUDIES

In the area of pharmaceutical lozenges , ensuring the highest standards of quality, safety, and efficacy is Meksmar's main mission to focus on. Our state-of-the-art laboratory stands as your trusted partner, offering a comprehensive suite of analytical, chemical, microbiological and testing services regorously designed to support every stage of your lozenge production process.

From raw material sourcing to final product release, our expert team of scientists and technicians employs cutting-edge technology and adheres to stringent Good Manufacturing Practices (GMP) to deliver accurate, reliable, and timely results. We understand the critical nature of your products and are committed to providing you with the data you need to make informed decisions and maintain regulatory compliance.
